

Malaysia Mappack (Peninsular, Sabah and Sarawak)

Compiled by "Hugo" (Chin Chai Huan), Purdue geoscience student from Malaysia; and revised by Rebecca Bobick.

Standardized to GTS2016 age model (July 2016) and migrated to GTS2020 (Apr 2020)

Placed on regional Map interfaces for convenience

Stratigraphic nomenclature, calibration to international stages, regional sequences and main generalized facies are mainly from PETRONAS "The Petroleum Geology and Resources of Malaysia", 2000, Petroleum National Berhad, Kuala Lumpur [Especially for offshore regions]; and Gobbett, D.J., and Hutschison, C.S., 1973. Geology of the Malay Peninsula (West Malaysia and Singapore) with lithostratigraphic descriptions enhanced from other publications.

Malaysia Peninsula

Northwest Malaya

Langkawi and North Perlis
Kedah
Kedah- Perak
Langkawi and North Perlis (N.W)
North Kedah (S.E.)

Central Malaya

Lower Perak
Selangor and Kuala Lumpur
Negeri Sembilan and Melaka

East Malaya

Kelantan and Terengganu
Kuantan

South Malaya

Johor and Singapore

Sabah

South East Sabah

Kalabakan-Kuamut Kalumpang region -- set of 3 columns

Northeast of Sabah

Labuk Valley Sandakan Kuamut.
Dent Peninsular Darvel Bay -- set of 2 columns
Labuan-Klias Crocker Range Sapulut -- set of 3 columns

Sarawak

Central Sarawak

Tinjar Province -- set of 3 columns
Coastline (Temana Well)
Shelf edge (Jintan Well)

North Sarawak

North Luconia Province -- set of 2 columns
Tatau Province (Half Graben)
Tatau Province (South-west Luconia)

West Sarawak

Tatau Province (South-west Luconia)
West Luconia Province -- set of 3 columns
Balingian Province (West Balingian) - set of 2 columns
Balingian Province -- set of 2 columns
